Softonic review Stick It To The Stick Man is a free action video game for PC by indie developer, Call Of The Void. It is a fast-paced side-scrolling game that features the ever-popular stick man action character model. It revolves around brawler-style gameplay, with some physics-based mechanics added to amplify combat effects. Stick It To The Stick Man is quite similar to Stick Fight: The Game that features comparable gameplay and physics-based elements. The former is a much more refined game, though. Graphical details are much sharper, animations are much smoother, and the actual combat flows better and feels more responsive. How do I play Stick It To The Stick Man? If you've played any kind of stick man action game before, then getting into Stick It To The Stick Man will be easy and familiar. In the game, you are just another disgruntled stick man office worker trying to get his job back. Of course, it won't be easy as there will be obstacles to face. It is up to you to fight your way back up the corporate ladder again, by any means necessary. Aside from the melee combat that includes but is not limited to headbutts, spinning punches, and flying kicks, you get a wide variety of weapons at your disposal. These include anything from glue guns to ninja stars and a chainsaw. Round out the spectacle of chaos and mayhem with a celebratory cup of coffee with gastronomically explosive results — obviously, the game has no qualms about crude humor. Stick It To The Stick Man even manages to incorporate rogue-lite elements into its gameplay. You will get to learn new and more powerful moves as you punch, kick, and shoot your way through hordes of enemies. The only thing that could be improved upon is performance. The game tends to lag and slow down during intense fights with a lot of enemies flying around. Slack, chaotic, and a lot of fun. Stick It To The Stick Man is simply loads of fun to play. Take all the other stick man action games that you've played before, and crank everything to 11. It is one of the most refined and polished games of its kind yet. If you have some time to spare and you want to let off some steam, give this one a shot. A must-play, polished and refined gameplay. Various melee combos and weapons. Rouge-lite elements. Occasional lag and slow downs.
